Important info to help you to **budget** for your studies:

- Distance education on the Internet, while you are studying at your own time from the comfort of your home, saves a lot of money. At the Academy of Sexology International, we offer the highest academic value at the lowest possible costs.
- Over the decades we became well known for our very low fees while sustaining the highest academic standards. Our graduates proved to make a difference to the sexual and relationship health and well-being of many people.
- Your basic costs are the fee per module (see above). You only enrol & pay as you go for one module at a time. You are welcome to pay for more than one module, but you cannot enrol for a next module until you have passed the previous one. We'll credit your account but there will be no refunding of payment whatsoever.
- A once-off application fee of R 500 that must be paid upfront in order to process your application. (Bank details bottom page 2).
- We strongly recommend that all our students register with a professional body as a student member. Your student membership with a legal professional body, such as the Council for Sexual Health Professions NPC in South Africa (CSHP), will give you a definite advantage to internship during and practice after graduation. All our South African students must register with the Council for Sexual Health Professions NPC in South Africa (CSHP). Visit www.cshp.co.za for more info. We also recommend membership of sexual health organizations but please note the difference between a professional body (we enables you to practice legally, and a sexual health organization who promotes sexual health.
- Budget for a R500 exam fee to pay to your invigilator (R500 per module only if an exam is required). +/- 20 modules do require an exam. The exam can be written close to your residence but must be arranged by you. See Regulations for Invigilators.
- Although we supply all the study material you'll need in digital format, we strongly recommend that you start to build your own library of essential books in sexology. The Curriculum and Study Guides are the intellectual property of Prof Dr Johann Lemmer.
- Budget for a 5% p.a. increase in fees due to inflation and for your personal internet connection There are no other costs.
- Remember this is a contract. **Please initial all pages and sign page 3.**

Important information:

The **Academy of Sexology International** sexology.ac is an International Private Higher Education Online Institution for the Scientific Studies of Sexuality with a proud and proven track record since 2003. The best proof of our success are the 20 plus graduates who diligently studied hard for many years and are now reaping the fruits of their efforts and money. See: www.cshp.co.za .

The Academy of Sexology is mandated by the World Health Organization (2001) & the Council for Sexual Health Professions NPC (CSHP) – Legal, registered, Professional Body in South Africa.

The *Academy of Sexology International* is an **International Private Higher Education Online Institution** for the Scientific Studies of Sexuality and should not be confused with the "Academy for Sexology" www.sexology.co.za (a registered South African Research Institution) and service provider to the "Academy of Sexology International". We have never pretended to be a South African university or to be accredited with The Department of Higher Education in South Africa. It doesn't make sense for an International Private Higher Education Online Institution and would do more harm than good to "be accredited. Each country has its own laws regarding professional qualifications and professional designations (to practice legally). Our graduates are practicing legally in South Africa and other countries since 2005 The traditional focus on the *accreditation* of the institution has been world-wide replaced by *recognition* of formal, non-formal and informal prior learning of the individual (RPL).

The Academy of Sexology academic standards is primarily based on the NQF framework of SAQA (levels 8, 9 & 10) and more specifically on RPL (Recognition of Prior Learning) policies world-wide.
